Subject: RESOLVED: RE: WA +OR Dicamba 24c Meeting Request: FW: 24a and 24c questions

False alarm! I sent the state staffer a brief "I'm checking" email and she replied that she found the answer to her question and no meeting is needed after all.

Subject: 24a and 24c questions

Margaret,
Thank you for a great presentation.

As a major minor crop state, I would like to set up a meeting for my state – Washington and Oregon to discuss how to navigate needed restrictive language on minor crops via 24c.

Maybe we can find time in later March or April?

Thank you.

Sincerely,

Robin Schoen-Nessa

**NATIONAL
PESTICIDE
SAFETY
EDUCATION
MONTH**

February is national pesticide safety education month!

WHY IS PESTICIDE SAFETY EDUCATION IMPORTANT ?

Pesticides impact our lives in many ways – improving food and feed yields and quality, protecting public health, and controlling pests in our homes, turf, waterways, forests, rights-of-way, and beyond – but must be used safely.
